Tomas and his crew were excellent. We hired TL Home Improvement to install CertainTeed siding on our home. Tomas and his team were professional, courteous and extremely efficient. Tomas is great and responded to us whenever we had a question. I am extremely satisfied with the work that was done and would highly recommend TL Home Improvement.

We recently hired TL Home Improvement for roof and gutter system replacement. The estimate/quote from Tomasz is fair and detailed with timelines and payment terms. He and his crew executed the plan very well with professional delivery. We highly recommend his services to anyone wishing to get roof/gutters replaced.

My fifty four year old home was in need of vinyl siding. I spoke with several contractors. I decided to go with TL Home Improvement. It was the right decision. Tomasz and his crew were very professional. They were at the home from start to finish. They cleaned up very nicely at the end of each day. Tomasz paid attention to every detail. He is courteous and attentive. I highly recommend TL Home Improvement.

I highly recommend TL Home Improvement for roof, siding, gutters - and any other services they offer. Tomasz and his team are incredibly professional, skilled and responsive. Communication is clear; estimates are detailed; work is completed as scheduled. And, Tomasz is an absolute pleasure to work with!

TL Home Impr. repaired the roof and installed gutter guards for our condominium association and for my son house. Work was done very professional, good quality and on schedule. Definitely would use them again for any applicable work

TL Home Improvement installed three exterior doors/ two octagon accent windows/ and four basement windows before installing the foam-panel insulation, vinyl siding and aluminum flashing. The carpenters and siding installers did a terrific job - exceeding my expectations. I would strongly recommend them if you are in the market for repairs/vinyl siding.

### Great Great

3 reviews

I used TL Home Improvement after doing a significant amount of research for products/installers in the gutter cover business. I am very happy with the work they did, the product they installed, and would not hesitate to recommend them. Tomasz is very responsive, fair in price, and doesn't waste time. He was onsite to oversee the work and was also doing the work himself (didn't just send a bunch of employees in his place). But the team that came with him were all hard workers and meticulously installed the gutter cover product LeafBlasterPRO. They were respectful of the property, cleaned up all debris after themselves and were happy to answer any questions or explain anything I inquired about during the installation. Overall I'm very happy with their work and a family member is already using them for a similar job after seeing them in action.

We were looking for quotes on siding and found Tomasz online. Once we read some of his reviews we decided to give him a call and get a quote. His quote was fair and extremely detailed. The crew was polite and professional and the work was top notch. They kept the site clean, started early and worked full days. Once finished I was asked if I was satisfied and if I was happy with the work. Tomasz, both my wife and I are very pleased with you, your crew and the craftsmanship you provided us. Our new siding, shutters and front porch railings are perfect!
